	Item:	Issues:	Fix:	Next Step:	Priority:	Estimated date of fix	Requestor	Date Requested	Date Completed
1	Need to add the full text limit to other mixed databases (Medline, Health Source Plus, Business Source Premier, Newspaper Source,)	Mapping Issue?	Done.			before upgrade			
2	Add LexPub's Library Catalog to List	time. They have a z39.50 catalog.	Done.			before upgrade			
3	Do we have "jump to" available in all databases?	Software?	Done.						
4	Add Medline to the Med and Nursing group.	time.	Done.						
5	Live web links NetFirst.	Mapping Issue?	Done in OCLC custom work			before upgrade			
6	Applied Science and Technology - getting a configration error when go to browse		Done			before upgrade			
7	Books In Print: Can we add a limit to those with reviews	Mapping Issue?				after upgrade			
8	Can we sort more than 50 records?	Software	changed with the upgrade to 4.1.1			after upgrade			
9	Fulltext button: can we make it not show when there is no full text?	Software? Mapping?							
10	Browse does not mean anything to a user. Change Browse to "Find a word to search by"								
11	Jump from selecting db's in create your oun group, directly to the search screen (skip the back to db list)		Steve Gregory in CO is doing this. adding 3 lines of java?	Beth					
12	Separate Catalogs and Databases in the list.	Software?				after upgrade			
13	Add indication of which databases contain full text								
14	Can we change the size of the font on the list of databases?	Software?				After upgrade			

15	Can we change the Mark image that you click on so you know that you have? Can we actually use the little check box that First Search does?	Software	Dependent on Software.					
16	World Almanac showing HTML in abstract of the the full record.				High			
17	Is the login page okay? Does it need work? Are we pointing to the right one with the "backdoor?" There seem to be two floating out there.							
18	Add ASTA to the Sci and Med grouping				High	days		
19	New footer at bottom of Help page?	time.	Easy. Can be done.					
20	Database descriptions in alpha order?	time.	Easy. Can be done.					
21	What is the truncation symbol for databases? Sometimes ? sometimes *	time. Need to fix help screens.		Susan will experiment to see what actually happens		before upgrade		
22	OCLC accession number in WorldCat	Mapping Issue?	OCLC should have done this in custom work	Beth checking into it	High	days		
23	Add "availability" field to full record in ERIC				High	days		
24	Can we put Full-Text limiting option on Basic Search Screen (keyword)?	Configuration			High	weeks		
25	In help screens. Note on Author order. It does not matter what order you type in names.							
26	Medline Fulltext is not displaying the Source information in either the brief or full record.	mapping			High	days		

27	KDLA catalog link - change of to for				HIGH				
28	EBSCO Animals needs a * to indicate the availability of full text				high				
29	Make the mark and unmark words into two images a checked checkbox and an unchecked checkbox.				High				
30	Make the words Save and Mark consistant. Change them to Mark				Medium				
31	Add Business Newswire (EBSCO db)	It is Z compliant; we do have local db name and port number	Will be accessible when we have the native interface available in WebZ		High				
32	Add Image Collection (EBSCO db)	It is Z compliant; we do have local db name and port number	Will be accessible when we have the native interface available in WebZ		High				
33	Add EBSCO's Online Citations (EBSCO db)	It is Z compliant; we do have local db name and port number	Will be accessible when we have the native interface available in WebZ		High				
34	Add EBSCO's Library Resource Center database. (EBSCO db)	It is Z compliant; we do have local db name and port number	Will be accessible when we have the native interface available in WebZ		High				
35	Limit to FT when searching a database group				High	weeks			
36	Email the full text of articles	Are there copyright issues? EBSCO and FS allow it.		Susan spoke with Kara at SSUG. She said that she thought there was a way around this. Contact Kara.	High	weeks			

37	Marking a record from the full text: The save button does not seem to be enabled from the FT screen. When record is marked from FT screen, does not grab anything when you look at the "View Marked Records." Also does not show up as marked when you go back to the search results list. Tried in ASE.				High	weeks			
38	"About" link next to each database for link to description. Temporary Fix: add link to the descriptions page from the "single" page. Temp fix is done.		Opens the page up within the frame. While patron is out, their WebZ session times out.	Work out the JAVA solution. Not Easy. Temporary fix is done.	Medium	weeks			
39	Can we add the Browse capability to the EBSCO databases and catalogs?	Mapping. Browse is available with the FirstSearch DBs but is it with Ebsco or Catalogs? Would need to be able to map the indexes.		Beth will look into removing the browse buttons from EBSCO and catalogs until we have time to look into adding the indexes	Low				
40	In catalogs, format holdings info to show all holdings if less than 5 . If more than 5 then state how many and see full record for these.		CO was doing this	Beth	Low				
41	Add database list button to info on Nav Bar								
42	Add Kentuckiana, Catalogs, and title lists to the descriptions								
43	Add limiting to full text under the basic search screens								
44	Duplicate the new /e2 environment in /e3 so that /e3 can serve as our test environment.								

45	Add KyHistSoc Catalog to the list	time.	Endeavor NT client does not seem to be Z39.50 compliant.	Work with Endeavor				
46	Include links to native interfaces							
47	Main page (nfdblist.html) shows 2 buttons for WorldBook Online.	Eliminate second button.			High		Susan	7/16/01	7/18/01
48	Check guest login link on Catalogs and Database Gateway page.	Link currently leads to "page cannot be displayed."			High		Tanzi	7/16/01	7/18/01
49	Take "FT" tag off Cinahl on the "Search Single" page.	Cinahl is not Full text			High		Tanzi	7/16/01	7/19/01
50	Check rollover description on social sciences group. Add PsycInfo to Soc Sci group.	Soc. science group rollover description lists PsychInfo, but PsychInfo is not part of group when you search group.			High		Requested by Fran Davis via Tanzi	7/16/01	7/19/01
51	On failed off-site authorization screen, replace SiteSearch logo with KYVL logo.						Susan		7/19/01
52	Primary Search Online and Middle Search Plus should be marked with a full-text icon.						Tanzi	7/26/01	7/27/01
53	Remove html tags from fullnf text display in World Almanac.								7/27/01
54	Add full-text indicator to Medline.						Stacey Nickell	8/1/01	8/1/01
55	Search in ASE. The PDF link leads to the EBSCO native html	Some records go to true PDF and others go to EBSCO native html. In all cases, however, we are led to the correct http address specified on the marc record (856/21) EM	Part of "systematic searching of all dbs"		High		Susan		8/3/01

56	Search in MAS FTU. Advanced search on Readers Digest in the journal/Issue field returns journals that are not Readers Digest. Seems to be doing a keyword search.	Advanced search defaulted to kw search because we had index defined incorrectly. Once index was corrected, I verified search results using zclient. (We are not actually receiving a journal/issue index from vendor for Reader's Digest. Used Reader's Digest, health & heart in test. Also tested successfully with Newsweek J/I and wrinkles kw. We do receive J/I indexes on Newsweek and Time.) 08/01/01 EM	Part of "systematic searching of all dbs"		High		Susan		8/6/01
57	Add Medline to Science & Technology group.						Tanzi	8/10/01	8/13/01
58	Check creation of group databases.	Name of group does not show up when you return to catalog and databases screen. However, also receiving message that Z39.50 is not available (Tanzi). When 3 DBs were checked for group, only 1 DB			High		Requested by Tanzi on 7/12/01. Miko mentioned group creation problem on 7/16/01	7/12/01	8/21/01
59	Sometime when predefined group is selected, not all of the databases are checked.	May be related to problem in group database creation.			High			7/26/01	8/21/01
60	Exit/Logoff page: make the word logoff a button so that it's obvious that you need to click on it.				Low		Susan		

61	When I click on Catalogs and Databases, then on create your own group of databases, it says that the databases with *\'s contain some full-text, but none of them are *\'ed and I know 12 of them should be.						Lynn Cox (lynn.cox@kctcs.net)	8/14/01	10/1/01
62	Add Midway catalog.						Kathy Reilender; Midway College; Reilender, Cathy creilender@midway.edu	9/26/01	10/25/01
